

## Tommy Lift,Hydraulic Tail Lift for Drop Side Trucks

The Tommy Lift Series 1000 electro-hydraulic tail lift. Available with steel and aluminium platforms  
Tommy Lift for Drop Side Trucks, Flat Beds, Lutons, and Box Bodies Models: 60-40 F10, 64-40 F10,72-40 F10, 78-40 F10, 78-46 F7, 86-46 F7 Available with steel or Aluminium platforms.

### Capacity

- The series 1000 Tommy Lifts are electro-hydraulic tail lifts capable of raising and lowering 500kg

### Mounting

- The Tommy Lift is designed to suit one ton pick-up trucks through to 7.5 ton GVW drop side trucks, flat beds, tippers, Luton and box bodies.
- Tommy Lifts are designed so that spare wheels can remain in original position and tow bars can be used.

### Loading Platforms

- The standard loading platform is constructed in 12GA (2.6mm) steel with a fold out extension. Platform remains flush with top of truck bed and will not obstruct driver's view.

### Mechanical Features

- All critical components are fully enclosed in main frame of tail lift providing protection from elements and damage. Easy access for servicing.
- Electro-hydraulic power unit which only runs when lifting.
- Pump: 12 volt DC unit / 205 amp draw / 3800psi pumping.
- Bushes with grease nipples on all pivot points for long wear and ease of maintenance.
- Zinc plated cylinder ram
- Torsion assist spring provides easy tail gate operation. Can be raised and lowered easily with one hand.

### Safety Features

- Pressure relief valve: Prevents operator from overloading the lift.
- Flow control valve: Prevents uncontrolled descent of platform in case of hose failure
