

 **CITROËN**

NEW
CITROËN E-BERLINGO ELECTRIC

During the 90s Le Tone had a major hit, "Joli Dragon", and devoted himself to music for 15 years before progressively moving towards illustrative art. Since 2011 his creations have been exhibited in famous places such as the Pompidou centre. An admirer of artists who know how to make the best use of colour, Le Tone confesses to having a weakness for black and white, which he uses to tell simple stories by using felt pen drawings in notebooks.

1974

Citroën launches CX. It's the ultimate mix of technical innovation and advanced design with the engine and gearbox positioned together at the front. Sophisticated hydropneumatic suspension, concave rear screen and a futuristic dashboard help it to succeed amongst more ordinary rivals.

2019

The spectacular design of the 100% electric 19_19 Concept is inspired by aeronautics and pushes comfort to the extreme, with a lounge on-the-move experience created by intelligent suspension. It also provides autonomous driving, a personal assistant and a range of 500 miles.

1934

Citroën revolutionises the automotive landscape with Traction Avant. The famous name relates to its ground breaking front wheel drive engineering.

1939

Citroën launches 'TUB', a supremely practical modern design with a sliding side door: its successor is the famous Type H, above, launched in 1948.

1948

The much-loved 2 CV is created as a "safe and economical vehicle, able to carry 4 people on-board and 50 kg of luggage". More than 5 million are made.

1955

Unveiled to a stunned public at the 1955 Paris Motor Show, DS takes futuristic design to new heights. Its stunning aerodynamic shape, created by Flaminio Bertone, earns it the nickname 'flying saucer'. Under the skin it's just as advanced.

1968

It's a golden age for light and agile vehicles like Ami 6, Dyane and Mehari, a unique design for all roads and multi-purpose use.

1970

The modern looks and neat style of GS will see it remain one of the most aerodynamic and comfortable vehicles on the market for years to come. Equipped with a flat 4-cylinder engine and hydropneumatic suspension, this hatchback will go on to sell around 2.5 million units.

Discover the models that make up Citroën's extraordinary history, from 1919 to the present day.

A CITROËN FOR EVERYONE

Around town or in the country, every Citroën provides pure comfort and a welcoming environment. It's always been this way. Today, Citroën gives you the choice between fully electric, plug-in hybrid, petrol and diesel vehicles.

PLEASURE OF ELECTRIC DRIVING

New Citroën ë-Berlingo Electric stands out due to its unrivalled driving experience, with minimal vibration and noise, instant torque and zero emissions at tailpipe whilst driving. In addition to reduced running costs, New ë-Berlingo Electric offers great freedom of movement in increasingly regulated urban areas, as well as rural areas, with a range of up to 174 miles*.

PRECONDITIONING

* According to the WLTP cycle.

ELECTRIC MOTOR

The e-Toggle controls the gearbox

With New Citroën e-Berlingo Electric, every journey becomes a relaxing experience for all onboard. Thanks to the instantly-available torque it pulls away smoothly with minimal vibration.

The electric motor offers 136 hp with a maximum speed of 81 mph (where legally permitted).

Three driving modes are available: Normal delivers the best combination between range and dynamic performance, Eco optimises energy consumption; and Power to maintain the performance of the vehicle when fully loaded.

New e-Berlingo Electric is simple to use thanks to the centre console mounted, e-Toggle which controls the gearbox. Simply select Reverse, Neutral or Drive.

To optimise range, activate "Brake" mode.

This increases the deceleration of the vehicle without the need to press the brake pedal and so recovers energy for the battery.

BATTERY WARRANTED FOR 8 YEARS / 100,000 MILES FOR 70% OF ITS CAPACITY.

STYLE

STRIKING PERSONALITY

A high, short bonnet to dominate the road, an expressive front face, a forward-set windscreen, Airbump® panels, a colourful signature*, particularly around the front foglamps*... New Citroën ë-Berlingo Electric is a real breath of fresh air with its strong design and fluid lines. Its modern style is a successful combination of daring, practicality, intelligence and comfort.

**Depending on version.*

NEW CITROËN ë-BERLINGO ELECTRIC FLAIR XTR

New ë-Berlingo Electric Flair XTR stands out with its Orange Colour Pack, seen in the exterior details. This version also features stylish Onyx Black door mirrors, front and rear scuff plates and the Resada Green interior ambience, incorporating an orange strip.

M

2 SIZES
FOR ALL THE FAMILY

XL

UP TO

XL versions can accommodate up to 7 people, meeting your travel needs both with family and friends.*

New Citroën ë-Berlingo Electric is available in two lengths, both with generous dimensions and balanced lines.

M

5 SEATS

XL

7 SEATS

Size XL is 35 cm longer than Size M, thanks to its extended wheelbase and rear overhang. The third row of seats can be slid forward or removed, allowing you to choose between passenger comfort and increased boot space.

THE ESSENTIAL PARTNER FOR ALL OF YOUR ACTIVITIES

VERSATILE, PRACTICAL AND SPACIOUS

New Citroën ë-Berlingo Electric has everything that a sporty family needs, whether you enjoy cycling, walking or any other outdoor activities. Its silhouette crowned with roof bars* emphasises its modern and dynamic profile.

WELL-BEING

FOR UNRIVALLED ULTIMATE COMFORT

Contemporary and welcoming, the interior of New Citroën ë-Berlingo Electric has been designed to ensure serenity reigns supreme. The CITROËN ADVANCED COMFORT programme delivers innovative, technological and intelligent solutions to create well-being for drivers and passengers alike, and confirms Citroën's driving-comfort credentials. Four main themes are at the heart of this comfort engineering: the cocoon effect, practicality, fluidity and peace of mind.

FILTER

FLAWLESS INTERIOR SPACE

USER-FRIENDLY INTERIOR

New Citroën ë-Berlingo Electric has been ingeniously designed to offer exceptional comfort for all of its occupants. On the inside, there is a feeling of peace of mind and practicality.

DESIGNED FOR WELL-BEING

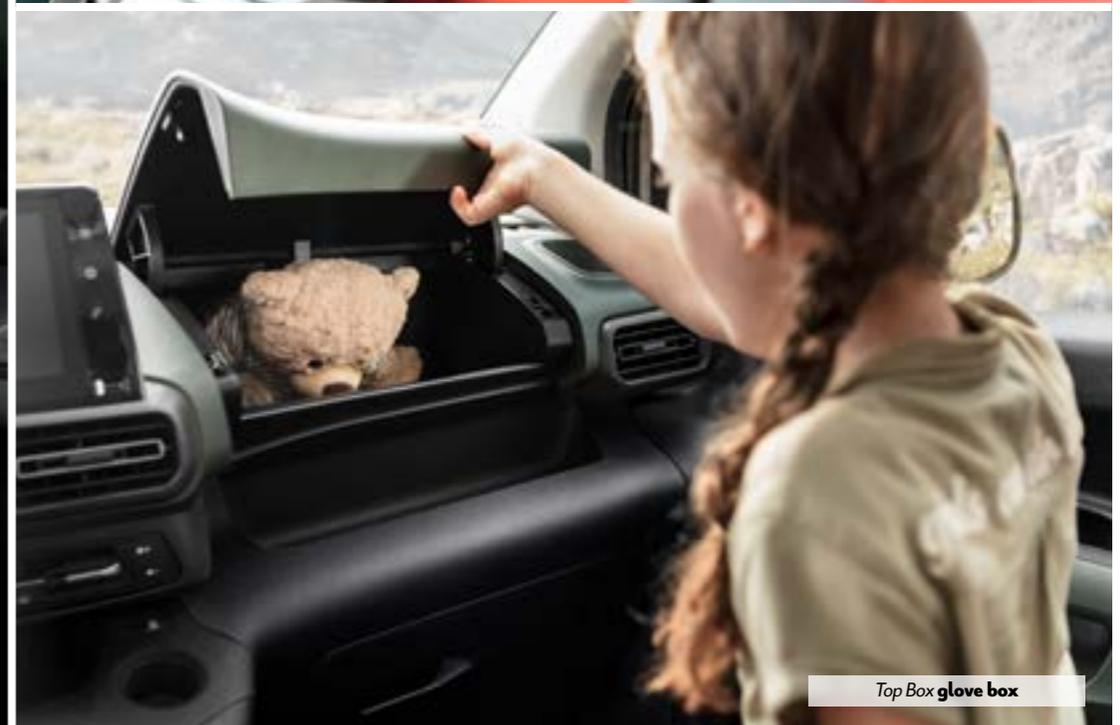

At the front, New Citroën ë-Berlingo Electric offers generous cabin space thanks to its forward-set windscreen and the refined design of its dashboard. The soft and warm materials, inspired by the furnishing and travel industries, contribute to reinforcing this feeling of well-being.

On the passenger's side, the Top Box is a large, lidded storage compartment in the upper part of the dashboard. The optional Modutop® feature*, with its floating translucent roof arch, background lighting and additional storage is accessible from the second row or the boot. Many additional clever storage compartments have also been designed in, for smartphones, cupholders and others for personal belongings. Finally, New Citroën ë-Berlingo Electric is fitted with both front and rear electric windows**.

* Available as an option. ** Depending on version.

Modutop®*

Top Box glove box

OPENING REAR SCREEN

AND SLIDING DOORS

Practical inside and out, New Citroën ë-Berlingo Electric is incredibly easy to access with its two sliding side doors. The width of these doors has been optimised to maximise their practicality. To make it easier to access the boot and offer unique accessibility, the rear screen can be opened*.

** Depending on version.*

3 FULL SIZE REAR SEATS

In the rear of New Citroën ë-Berlingo Electric, everyone benefits from the same level of comfort, wherever they are sat, thanks to the three individual seats* which are all the same width. In addition, these three seats have generous leg room, in both M and XL versions. Each of the 3 rear seats is fitted with an Isofix mounting and can be folded flat.

** Depending on version.*

MODUTOP®

92 LITRES OF STORAGE AND REMARKABLE LIGHT

A unique feature of this leisure activity vehicle, the optional Modutop® roof box, accessible from the rear seats or from the boot, offers a translucent arch along with ambient lighting running along the entire length. Along with its additional 92 litres of storage space, Modutop® creates more light with its large glass roof which can be covered with an electric blind.

EXCEPTIONAL MODULARITY

FOLD-FLAT INDIVIDUAL SEATS

The individual rear seats can be folded flat separately or together*, allowing you to adapt the configuration to perfectly suit your needs. New Citroën ë-Berlingo Electric, offers up to 4,000 litres of volume, and a load length of over 3 metres with XL versions. At the rear of the vehicle, the parcel shelf on M versions has two positions with the traditional high position and the intermediate position, which allows you to section off the boot. It can support loads of up to 25 kg and is easily accessed from the opening rear screen*. For added convenience, the shelf is easily stowed behind the second row of seats.

* Depending on version.

2 rear seats and the front seat retracted

1 rear seat and the front seat retracted for 3 m of length

3 rear seats and the front seat retracted for a volume of 4,000 l

LETS YOU TRAVEL TOGETHER

New Citroën ë-Berlingo Electric adapts to the needs of everyday life and can accommodate 7 people in comfort. For versatility the third row seats are sliding and removable.

PEACE OF MIND

FOR GREATER SAFETY AND CONNECTIVITY

Modern and contemporary, New Citroën ë-Berlingo Electric has a total of up to 15 driving assistance systems* as well as fully connected technology designed to be fully practical on a daily basis and exemplified by the My Citroën Drive system with voice recognition*. For even greater peace of mind, New Citroën ë-Berlingo Electric is equipped with Citroën Connect Box, with Emergency Assistance included.

** Depending on version.*

CONTROL OVER THE ROAD

GRIP CONTROL WITH HILL DESCENT ASSIST

New Citroën e-Berlingo Electric has been designed to guarantee you the best in road holding. Grip Control* with Hill Descent Assist allows optimal control of vehicle traction and speed in all weather and road conditions, even on steep slopes.

* Available as an option on Flair XTR versions.

GRIP CONTROL WITH HILL DESCENT ASSIST

8" TOUCH- SCREEN

STAY CONNECTED

New Citroën ë-Berlingo Electric features an 8" colour capacitive touchscreen, which lets you zoom in with your fingertips, just like on your smartphone. The touchscreen controls numerous vehicle functions, such as the navigation and the DAB radio. Thanks to Mirror Screen, using Apple CarPlay® and Android Auto™, you can connect your smartphone and control compatible apps from the touchscreen with confidence.

CONNECTED NAVIGATION

The 3D* connected navigation system, My Citroën Drive, links to Real Time Traffic & Speedcam providing up to information, such as the location of service stations and their fuel prices, and car parks. It also provides local weather information and local points of interest.

** Depending on version.*

PARK ASSIST**

This is an active parking assistance system, used for parallel and bay parking. When requested by the driver, it automatically detects a space, then controls the steering to park the vehicle in complete safety. The driver just needs to engage reverse gear, accelerate and brake.

COFFEE BREAK ALERT

This system warns the driver when it is time to take a break, after two hours of continuous driving at over 40 mph (65 km/h).

DRIVER ATTENTION WARNING**

This system evaluates the driver's attention level by identifying changes in trajectory in relation to the road markings. This feature is particularly suited for use on high-speed roads at over 40 mph (65 km/h).

BLIND SPOT MONITORING SYSTEM**

Very useful on high-speed roads or on motorways, this monitoring system indicates to the driver that there is a vehicle in their blind spots, using an orange light located in the corner of the door mirrors.

ACTIVE LANE DEPARTURE WARNING SYSTEM**

This system works using a camera which recognises solid and broken road markings. It detects the unintentional crossing of a traffic lane marking. The steering then gently steers in the opposite direction to bring the vehicle back into its original lane. This corrective action stops when the indicators are switched on.

EXTENDED TRAFFIC SIGN RECOGNITION AND SPEED RECOMMENDATION**

At any time, this system gives the driver information about the current speed limit. When a speed limit sign is detected by the camera, the driver can accept the recommended speed and make it their cruise control or speed limiter reference speed.

COLLISION RISK ALERT

This warns the driver if their vehicle is at risk of collision with the vehicle in front or a pedestrian present in their traffic lane. If a risk of collision is detected, a visual and audible warning is given to the driver.

ACTIVE SAFETY BRAKE

This emergency braking system reduces the risk of collisions. It works from speeds of 3 mph (5 km/h) and detects fixed or moving obstacles and pedestrians. If a collision risk is detected, an alert is given to the driver. And, if they do not react to this, the system automatically applies the vehicle brakes.

** Available as an option.

* As a result of the global shortage of electronic components, some equipment may be temporarily unavailable.

SAFETY AND WELL-BEING ON BOARD*

∅ CAN BE DEACTIVATED

∅ CAN BE DEACTIVATED

∅ CAN BE DEACTIVATED

∅ CAN BE DEACTIVATED

GRIP CONTROL WITH HILL DESCENT ASSIST**

The traction control system optimises front wheel grip based on the road surface encountered. The dial integrated into the dashboard allows you to select one of the 5 modes: Standard, Snow, Sand, Mud, ESP OFF. Hill Descent Assist holds the vehicle at a low speed, bringing control and safety even on steep slopes. This function is activated using a dedicated button on the centre console and works both in reverse and forward gear.

AUTOMATIC HEADLAMP DIPPING**

This feature takes over the switching from main beam to dipped headlamps according to the surrounding traffic, based on whether other cars are detected or not.

FRONT, REAR AND SIDE PARKING ASSISTANCE**

This system tells the driver how close they are to obstacles using lines displayed on the 8" touch tablet and an audible alert.

ELECTRONIC PARKING BRAKE**

This system works in two ways. It is applied automatically when the engine is switched off and released when you move off. It can also be applied and released manually, by using the control paddle.

HILL START ASSIST

This system prevents unwanted vehicle movement on a slope when the brake pedal is released. Hill start assist acts on gradients of over 3% by holding the vehicle stationary for around two seconds. The driver can therefore calmly move from the brake pedal to the accelerator pedal.

TOP REAR VISION**

In reverse gear, using the camera, the touch tablet displays the rear view of the vehicle with the addition of coloured lines, as well as a reproduced 180° image of the vehicle's surroundings. When approaching an obstacle, the camera zooms in automatically.

KEYLESS ENTRY AND START**

This system allows you to lock, unlock and start your vehicle while keeping the key on your person.

** Available as an option.

* As a result of the global shortage of electronic components, some equipment may be temporarily unavailable.

ELECTRIC POWER: SIMPLE TO USE

Hover to enlarge 

New Citroën ë-Berlingo Electric is easy to charge.

Three methods of battery charging are available, accompanied by a complete range of practical services. The charging flap is located on the rear left wing. This incorporates an LED giving a visual indication of the progress of the charging process.

Imagery shown for illustration purposes only and may not reflect current UK specification. Please check with your Citroën Retailer at the time of ordering.

AN INTERFACE DEDICATED TO ELECTRIC POWER

New Citroën ë-Berlingo Electric has been designed with one priority: to make its day-to-day use easier. On board, a 10" high-definition digital* instrument panel continuously displays the battery charge status gauge and the power consumption.

As for the 8" touchscreen, this provides, an "Energy" section grouping together all of the information dedicated to the special features of New Citroën ë-Berlingo Electric: the energy flow, the battery charge level, your consumption statistics and scheduling of deferred charging and cabin temperature pre-conditioning.

* Depending on version.

Energy flow: to view the operation of the electrical technology

Statistics: show your electrical consumption and optimise your driving

Deferred charging: forward schedule charging at a time of your convenience

CHARGING TYPES AND TIMES

Of the three options for charging New Citroën ë-Berlingo Electric, the quickest way is using a Wall Box or a public charging point. A Wall Box can easily be installed at your home and allows charging from 0 to 100% in under 8 hours. On a 100 kW public charging point, the battery is charged to 80% in 30 minutes*.

** The vehicle will rapid charge at a rate of up to 100kW, depending on the power of the rapid charging station used and will take longer to charge at a lower power. Between 15-80% of the vehicle's charge in 30 minutes from a 100kW charger.*

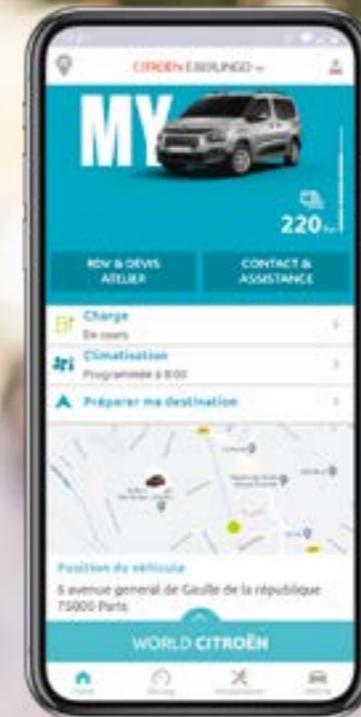

YOUR PERSONAL SPACE ON THE MY CITROËN APP

Stay connected at all times thanks to the MyCitröen smartphone app. You'll find key information about your vehicle at your fingertips, including:

- Vehicle location using the 'Find My Car' feature.
- Make an appointment at your local Citroën workshop.
- Consult the handbook.
- Consult your service booklet.
- Contact Citroën Assistance.

And in addition, for New Citroën ë-Berlingo Electric:

- Access key information including the level of charge of the battery, the charging time and the remaining range of the vehicle.
- Obtain updates on charging status.
- Programme a deferred charge.
- Start or schedule temperature pre-conditioning.

DIMENSIONS

Measurements in millimetres.

With the added reassurance of a warranty, routine servicing and maintenance, as well as 24-hour roadside assistance, you are protected.

• CITROËN WARRANTY

Every new Citroën car has the benefit of a 3 year* warranty package, plus a 12 year anti-perforation** warranty and a 3 year paint warranty.

• CITROËN ASSISTANCE

Citroën Assistance brings rapid expert roadside assistance to you in an emergency in response to a telephone call. It comes free of charge for a full year and operates 24 hours a day in all parts of the UK and Europe. Services include nationwide recovery for both car and passengers, a home call service, replacement vehicle, hotel accommodation and vehicle storage if required. Please note, Citroën Assistance only applies to incidents covered by the new vehicle warranty, and excludes non-vehicle faults, such as running out of fuel, misfuelling, loss of keys, lock-ins, road traffic accidents and punctures/wheel changes. For more details, please contact Citroën at <https://www.citroen.co.uk/owner-services/emergency-assistance>

* 2 years' unlimited warranty. No-fee customer option of 1 year's Retailer provided warranty, only on cars sourced from Citroën UK Limited. Note: Retailer provided warranty is limited to 60,000 miles for cars.

** Against all internal to external perforation to bodywork or underbody.

• CITROËN MAINTENANCE

From roadside assistance to replacing wear and tear parts or regular servicing, with Citroën Maintenance you have total peace of mind. For a one-off fee or low monthly payment, our experienced engineers will take care of your Citroën, whatever happens. To find out more, contact your Citroën retailer or Citroën Authorised Repairer.

• CITROËN SERVICING

Available up to 1 year from your vehicle's registration date, but before its first chargeable service, a Citroën Servicing Package enables you to pay in advance for your vehicle's servicing needs for 3 years/35,000 miles. For further information, please contact your Citroën retailer.

• CITROËN MOT TEST

Once your vehicle is three years old, it requires an annual MOT Test. This is a legal requirement to check that it meets road safety and environmental standards. Our nationwide network of Citroën Authorised Repairers know your Citroën best, so if your vehicle's MOT Test is due, why not contact your local Citroën retailer? You can be confident that your vehicle will be looked after by one of our expert trained Citroën Technicians, nominated by DVSA as accredited MOT Testers. Plus, whilst your vehicle is with us, we'll carry out a free manufacturer diagnostic test, check for any new technical updates and carry them out for free - that's the advantage of getting your test done by the people who really know your Citroën.

Insurance groups (1-50) are an indication only, please consult your insurance company for further details.

CO₂ figures, P11D values, BIK% and MRRP pricing shown above are for a standard vehicle without any additional optional equipment. CO₂ figures are used to calculate Vehicle Excise Duty (VED) for the first registration of the vehicle and BIK%. The addition of optional extras could increase the certified CO₂ emission output. This in turn may affect the amount of VED payable upon registration, and, for company car drivers, the amount of Benefit in Kind (BIK) tax payable.

For further information on CO₂ and pricing for vehicles with optional equipment, please visit <https://www.citroen.co.uk/configurator.html>

The range and electric consumption figures mentioned comply with the WLTP test procedure, on the basis of which new vehicles are type approved from 1 November 2018. They may vary depending on actual conditions of use and on different factors such as : speed, thermal comfort on board the vehicle, driving style and outside temperature. The charging time depends in particular on the power of the charger on board the vehicle, the charging cable and the type and power of the charging station used.

+ Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO₂ values of other cars tested to the same technical standard. The fuel consumption achieved, and CO₂ produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load.

The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO₂ figures.

* 'On the Road' MRRP includes registration plates and delivery to dealer (including VAT), 12 months' Vehicle Excise Duty and new vehicle registration fee of £55. Excludes fuel and insurance.

All information and prices correct at time of publication, but are subject to change at any time without prior notice (which may occur as a result of, but not limited to, any changes in legislation and/or any changes by the Government). Please see our Prices and Specifications brochures or contact your local Citroën dealer for the most up-to-date prices and specification details for all models.
