CITROËN ë-RELAY & RELAY

# Uncompromised comfort

Discover Citroën ë-Relay Electric and Citroën Relay, and experience the same robustness and comfort in either electric or diesel, panel van, window van or Relay conversion.

A resolutely modern design expressing dynamism and strength featuring headlights equipped with LED daytime running lights to complete a stylish front end. But it's the remarkable choice of load capacity and body type that sets the Citroën Relay apart to meet the exact needs of your business.

IMPORTANT NOTE RE: CONVERSIONS

Any vehicle ordered (including panel vans) for a conversion that changes the base vehicle type approval must be aligned to a Stellantis Certified Converter within CustomFit Conversion tool by entering the associated vehicle order number. Please note that if the vehicle order number is not inputted into CustomFit Conversion tool then the order/s will be cancelled.

It is also important that you discuss your conversion project with the converter before ordering the base vehicle.

<https://converttool.stellantis.com/>

Category N1: Vehicles designed and constructed for the carriage of goods and having a maximum mass not exceeding 3.5 tonnes.

Category N2: Vehicles designed and constructed for the carriage of goods and having a maximum mass exceeding 3.5 tonnes but not exceeding 12 tonnes.

Specific differences, all N2 vehicles are legally required to be speed limited at 56mph, and have a tachograph

All information and prices correct at time of publication, but are subject to change at any time without prior notice (which may occur as a result of matters including, but not limited to, any changes in legislation and/or any changes by the government). Please see our Prices and Specifications brochures or contact your local Citroën Retailer for the most up-to-date prices and specification details for all models. CO<sub>2</sub> figures above are for a standard vehicle without any additional optional equipment. The addition of optional extras could increase the certified CO<sub>2</sub> emission output.

\* WLTP figures shown are for comparison purposes and should only be compared to the fuel consumption and CO<sub>2</sub> values of other vans tested to the same technical standard. The fuel consumption achieved, and CO<sub>2</sub> produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO<sub>2</sub> figures.

† All Manufacturer's Recommended Basic Prices are exclusive of V.A.T., Delivery to Retailer and Number Plates, Government First Registration Fee and Vehicle Excise Duty.

^ The Government PiVG is worked out at 35% of the Base Vehicle Price (incl. VAT) and including any discounts applied up to a maximum of £5,000.

Legal notice ELECTRIC VEHICLES:

As all e-Relay are homologated as Heavy and are not subject to WLTP testing, the range and electric consumption figures mentioned are calculated using WLTP Test Procedure methodology, on which the basis of all new Light Commercial or Passenger vehicles up to a GVW of 3500kgs are type approved, from 1 September 2018.

The figures may vary depending on actual conditions of use and on differing factors such as: speed, thermal comfort on board the vehicle, driving style and outside temperature. The charging time depends in particular; on the power of the charger on board the vehicle, the charging cable and the type of cable used.

Please contact your dealer or refer to [www.citroen.co.uk](http://www.citroen.co.uk) for further information.

\*\* Currently there is no PiVG approval for Chassis Cab Electric variants - This version is for large fleet orders only

# Safety Features

## Advanced Emergency Braking System (AEBS)

This system alerts the driver of a potential collision through a combination of visual and then audible warnings. Should the driver fail to react, autonomous emergency braking is triggered to help mitigate/avoid the impact by reducing the speed of the vehicle. AEBS provides additional assistance to optimise braking performance while a dynamic brake support function boosts pressure to help further minimise stopping distances.

## 360° Perimeter Parking Sensors\*

The 360° Perimeter Parking Sensors alert the driver both acoustically, and visually when the vehicle is approaching obstacles or going through tight spaces. Depending on vehicle length there are either 14, or 16 sensors surrounding the vehicle. These are located on the front and rear bumpers and also within the side mouldings. Visual warning is displayed on the cluster screen by the vehicle shape surrounded by three proximity bands, showing the vehicle distance from obstacles, while the acoustic (beep) warning increases in frequency as the obstacle comes nearer, becoming a continuous beep as the obstacle distance is lower than 30 centimeters.

## Blind Spot Information System (BSIS)\*\*

Audio and visual warnings will alert the driver in case the vehicle approaches an obstacle or has to go through narrow spaces. The audible warning will keep beeping with increased intensity as the obstacle is nearing and will decrease as soon as the obstacle is out of reach.

## Moving Off Information System (MOIS)\*\*

The Moving off Information System and Blind Spot Information Systems works together in order to allow the recognition of side obstacles inside the blind side area opposite to driver's position. Driver is alerted by a visual warning on cluster and the mirrors, when approaching obstacles located into the blind lateral area.

## Digital Rearview Camera\*

The digital rearview camera comes as a further help when driving and parking vans. The central 8,9" LCD high-resolution display provides an unobstructed and ultra-clear view of the road behind, thanks to a wide-angle, high-definition camera located inside the rear third stop lamp. Ability to function both as a digital LCD display or a standard optical rearview mirror. Auto-dimming, activation and brightness control by buttons located on mirror.

Note: Citroen driver assistance systems are intended to support the driver within the system-imminent limitations. The driver remains responsible for the driving task at all times.

\*Option available at additional cost

\*\* Standard on on N2 models

# Relay also includes a fleet management service offer....

## Preventative Maintenance

For 4 Years for Customers managed  
by DEALERS  
(B2C & SME)

OR

## Fleet Management Data Pack

For 4 Years for customers managed  
by NSC KMAs  
(Major Fleets, RAC & Leasing)

The Preventative Maintenance Service via Free2Move is designed to help monitor and optimize the health of commercial vehicle fleets, offering support through live alerts and upcoming maintenance reports. This makes it easier for fleet managers to keep their vehicles in good working condition, saving time and money.

- Fleet Dashboard View
- Maintenance Tracking
- Report via Email
- Vehicle Health Alerts
- Van Maintenance Appointment

Customers can upgrade (via subscription) to Connect Fleet. This management platform is a full version opening up a broader spectrum of possibilities. With Connect Fleet customers can optimise the use of their vehicles by gaining access to consumption reports, mechanical alerts, eco driving and driving behaviour reports and vehicle geolocation in the event of theft in real time.

For more details [click here](#)

For contact [click here](#)

4 YEARS TRANSFERABLE

Natively embedded telematics data via MyCitroen is already included in vehicle purchase for eligible vehicles. This enables a multitude of fleet management use cases to boost fleet efficiency, safety and sustainability, including:

- Fuel Management,
- Vehicle Health Monitoring & Maintenance Management,
- Route Optimization,
- Driver Monitoring,
- EV Charging Management

### Benefits for Fleet Customers

- Compatible with any Fleet Management Service Provider
- No expenses for aftermarket device, no additional data costs for customer
- No downtime for installation
- Seamless, immediate and zero-touch activation, rapid deployment at scale
- As telematics system is fully integrated in vehicle, data source is primary and will not be a third party approximation.

# Colours and wheels

## Body colours

Icy White (F) P0PR	Expedition Grey (F) P04K £800+VAT
Thunder Grey (F) P04K £800+VAT	Cumulus Grey (M) M0F4 £800+VAT
Graphito Grey (M) M0E9 £800+VAT	Iron Grey (M) M0ZW £800+VAT

(F) Flat  
(M) Metallic

Option availability varies according to version/engine/trim level.  
Some options are only available as part of a pack.  
Please refer to the options page for further information.

## Wheels

15 inch steel wheels

Standard on 35 panel diesel vans.

16 inch steel wheels

Standard on heavy, automatic and electric vans.

15 inch wheel trim

Optional on 35 panel diesel vans.

16 inch wheel trim

Optional on heavy and automatic vans.

16 inch alloy wheels

Optional

Legal notice ELECTRIC VEHICLES:

As all e-Relay are homologated as Heavy and are not subject to WLTP testing, the range and electric consumption figures mentioned are calculated using WLTP Test Procedure methodology, on which the basis of all new Light Commercial or Passenger vehicles up to a GVW of 3500kgs are type approved, from 1 September 2018.

The figures may vary depending on actual conditions of use and on differing factors such as: speed, thermal comfort on board the vehicle, driving style and outside temperature. The charging time depends in particular; on the power of the charger on board the vehicle, the charging cable and the type of cable used.

Please contact your dealer or refer to [www.citroen.co.uk](http://www.citroen.co.uk) for further information.

\* All N2 vehicles are legally required to be speed limited to 56mph.

\*\* WLTP figures shown are for comparison purposes and should only be compared to the fuel consumption and CO<sub>2</sub> values of other vans tested to the same technical standard. The fuel consumption achieved, and CO<sub>2</sub> produced, in real world conditions will depend upon a number of

factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO<sub>2</sub> figures. The CO<sub>2</sub> figures display a

range to reflect the highest value for the highest emitting version with all available options added, through to a minimum value to represent the lowest emitting version in standard specification.

# Factory conversions

## Dropside\*

**The Relay dropside features an open platform with fold down side panels to make loading and unloading of goods effortless.**

- Frame and cross-members in powder coated high-strength steel.
- Plywood load floor (12mm thick) with non-slip and scratch resistant resin coating.
- 400mm high and 25mm thick anodised aluminium removable side and rear panels with recessed hinges. Edge profiled for tarpaulin fixation.
- Integrated cabin protection made from powder coated high-strength steel with perforations to improve driver's visibility. Two lateral lashing rings.
- Integrated lashing rings on load floor (conforming to EN 12640 standards) secured with rubber plugs to avoid vibration.
- Rear plastic mudguards.

## Tipper\*

**The Relay tipper has an open platform that can be easily lifted to dump out the load. Our factory converted tipper is a one-way design.**

- Frame and cross-members in powder coated high-strength steel.
- Load floor made from powder coated high-strength steel, with "curved protection" at the rear which helps guide the flow of transported material as well as providing additional structural strength when loading and unloading.
- 400mm high anodised aluminium opening (180°) side panels and tipping pins with self-lubricating hinges and integrated roping hooks.
- Tailboard features dual-mode hinge enabling both tip-through and tip-over functions. Rear pillars are made from high-strength steel and feature a patented locking mechanism.
- Tipping angle of 45° with lifting time of 30-40 seconds.
- Integrated cabin protection made from powder coated high-strength steel with perforations to improve driver's visibility.
- Non-protruding 4-stage telescopic cylinder hydraulic ram. Control unit features anti-foam system for maximum tipping capability. 12-Volt System compliant to 2006/42/EC and 2009/19/EC with a pressure of 120 bar to limit overloading.
- Six integrated load lashing rings resistant to 800 daN.
- Rear plastic mudguards.

# Glossary of terms

## Plated weight

The maximum weight to which a vehicle or an axle may be loaded, determined either by the design of the components or by legislation. All commercial vehicles must carry a manufacturer’s ‘plate’ showing the vehicle and axle gross ‘plated weights’. It is an offence to drive a vehicle in a condition where any of these weights are exceeded.

## Kerb Weight

The Minimum Mass minus the driver's weight. When Kerb Weight used, driver weight is included within the Maximum Indicative Payload weight.

## Minimum Mass

Minimum Mass (‘Mass in running order’ on Certificate of Conformity and ‘Mass in Service’ on V5C form) is defined according to European Type Approval and include all fluids, tools and 90% fuel load/EV battery. It is minimum mass for this variant and does not consider local specification/trim or deletable options (specific to Relay). Weights are also subject to manufacturing tolerances (EU Legislation allows 5% tolerance).

## Gross Vehicle Weight (GVW)

The total permissible weight of a vehicle including payload and passengers, as shown on the manufacturer’s plate.

## Gross Combination Weight (GCW)

The maximum permissible weight of a vehicle, including payload and passengers, combined with the total weight of any trailer it is towing. The maximum GCW weight limit is quoted on the vehicle plate and must not be exceeded.

## Payload

The total permissible weight that can be carried without exceeding the vehicle’s plated weight. Payload do not include driver but do take into consideration specification/trim level: Weights are also subject to manufacturing tolerances (EU Legislation allows 5% tolerance). Payload does not consider any additional options that a customer may order.

## Roof loads

Roof loads should be evenly distributed. Max roof load on L2 is 100kg, L3 150kg and L4 200kg

## Maximum towing weight

The maximum weight of any trailer and its load which may be towed within the limit of the vehicle’s plated Gross Combination Weight (GCW). It is based on the ability of the vehicle – at full GCW – to restart on a 12% gradient, which is approximately 1 in 8.3, at sea level. At altitudes above 1500 metres, the engine output may drop with a corresponding reduction in towing capability. It is the operator’s responsibility to ensure that the trailer noseweight does not cause the rear axle plated weight of the towing vehicle to be exceeded. Always fit Citroën towing attachments and accessories available from your Citroën Commercial Vehicle Retailer. They are designed specifically for Citroën models and carry a 12-month warranty.

## Commercial Vehicle Categories

Differences between N1 and N2 (Vehicles with GVW above 3500kg)

**Category N:** Goods vehicles

**Category N1:** Vehicles designed and constructed for the carriage of goods and having a maximum mass not exceeding 3.5 tonnes.

**Category N2:** Vehicles designed and constructed for the carriage of goods and having a maximum mass exceeding 3.5 tonnes but not exceeding 12 tonnes.

**Specific differences:** N2 vehicles are legally required to be speed limited at 56mph, and have a tachograph

## Citroën & You

A network of Citroën Van Retailers, Authorised Repairers and Parts Distributors are equipped and trained to meet the needs of today’s Citroën customer.

Retailers can offer advice on vehicle funding; via Leasys with packages such as Contract Hire, Finance Lease or Lease Purchase for Business Users, or via Citroën Financial Services with Hire Purchase or Citroën Personal Contract Purchase for Retail buyers.

In addition Authorised Repairers have a team of technicians skilled in the care and maintenance of Citroën products.

### Delivery and number plates

There is a standard charge for delivery with number plates as follows:

Citroën Berlingo & Berlingo Van, Dispatch and Relay: **£1,074.17 exc. V.A.T. (£1,289 inc. V.A.T.)**

These prices are exclusive of Vehicle Excise Duty and the Government First Registration Fee. Where delivery is not made to the customer at the Retailer's premises, a further charge may be made at the Retailer's discretion.

### Vehicle Excise Duty

V.E.D. rate for all commercial vehicles up to and including 3,500kg G.V.W.: **£345**  
V.E.D. rate for all commercial vehicles above 3,500kg G.V.W.: **£171**

### Vehicle conversions

Conversions of vehicles supplied by Citroën UK are carried out by independent companies to suit the needs of individual customers. In all cases, the converter company is responsible for:

- Ensuring that the converted vehicle conforms to all legislation in force at the time
- The suitability of the conversion carried out, in agreement with the customer
- The quality of design and workmanship of the conversion
- Claims under guarantee relating to the conversion

Citroën UK Ltd does not accept any liability whatsoever and howsoever incurred in respect of the works carried out by such independent companies, and customers must assure themselves of the suitability, quality and legal conformity of such conversion works.

### Citroën Fleet and Business sales

All Citroën New Van Retailers are dedicated to meeting the specialist needs of both the fleet and business buyer. Their comprehensive service can include advice on important business vehicle decisions, such as alternative acquisition methods, disposal of existing vans, priority servicing and much more. In short, their expertise aims to provide a ‘total transport solution’ for all your fleet or business vehicle needs.

**For more information on Citroën fleet and business sales please contact your local Citroën Retailer or [click here](#)**

### Leasys

Leasys is the proud Business Contract Hire partner of Citroën and consequently, can provide quick vehicle delivery to keep your business mobile.

Specialised in Medium to Long-Term Leasing options and Fleet Management solutions for businesses of all sizes, Leasys lead mobility by offering sustainable and innovative solutions designed around customers, for a best-in-class experience. Their team of experts can personally support you and provide dedicated consultation.

Leasys is equally owned by Stellantis and Crédit Agricole Consumer Finance and is a member of the British Vehicle Rental and Leasing Association (BVRLA).

For further information, please contact your local Citroën Retailer or [Click here](#).

### Comprehensive Warranty

Every new Citroën van offers the benefit of a three year\* warranty package, plus a five year anti-perforation\*\* warranty and a two year paint warranty.

In addition, the ë-Berlingo, ë-Dispatch and ë-Relay offer a manufacturer’s battery warranty of eight years/100,000 miles up to 70% charging capacity.

\* Two years’ unlimited mileage manufacturer’s warranty. No-fee customer option of one year’s Retailer provided warranty, only on vehicles sourced from Citroën UK Limited. Note: Retailer provided warranty is limited to 100,000 miles for all commercial vehicles including motorhomes and other converted vehicles.

\*\* Against all internal to external perforation to bodywork or underbody on condition the van undergoes an inspection by a Citroën franchised Retailer on its second and fourth anniversaries.

### Citroën Assistance

In response to a free telephone call in the UK, Citroën Assistance brings rapid expert roadside assistance to you in an emergency.

It comes free of charge for a full year, from date of vehicle registration, and operates 24 hours a day in all parts of the UK and Europe. Services include nationwide recovery for both van and passengers, a home call service, replacement vehicle, hotel accommodation and vehicle storage if required. You can also purchase additional Citroën Assistance via your local Citroën Retailer at any time. Please note, Citroën Assistance only applies to incidents covered by the new vehicle warranty, and excludes non-vehicle faults, such as running out of fuel, mis-fuelling, loss of keys, lock-ins, road traffic accidents and punctures/wheel changes.

ë-Berlingo, ë-Dispatch and ë-Relay comes with a free of charge three year Citroën Assistance starting from the date of registration.

### Servicing

Available up to one year from your vehicle’s registration date, but before its first chargeable service, a Citroën Servicing package enables you to pay in advance for:

- Scheduled Servicing†
- Annual Service(s)† for vehicles with a two year service plan
- Brake Fluid Replacement†

This package can be personalised depending on your needs, with options ranging from 12 to 60 months and 10,000 to 100,000 miles.

† As outlined in your vehicle’s Maintenance & Warranty Guide.

### Maintenance

For a single fee or low monthly payments, you can put yourself in control of your maintenance costs. Depending on your needs, you can choose from a package that covers you between 12 and 48 months and between 10,000 and 150,000 miles and provides you with:

- Scheduled Servicing†
- Periodic Maintenance†
- Wear and Tear Cover – The replacement of friction materials such as brake pads, discs, wiper blades, clutch and other such items needed to keep you and your vehicle on the move
- Citroën Assistance, provided by the AA, includes: Roadside & At Home Assistance, Recovery, Onward Travel and European Cover

- MOT test fees

Why not add the following option to your chosen package:

- Replacement of worn tyres, including wheel balancing (includes puncture repairs)
- Replacement vehicle whilst yours is being serviced or MOT’d

Rest assured that all Maintenance and Servicing work will be carried out by qualified Citroën Technicians at any Citroën Authorised Repairer within the UK, using only Citroën Original Equipment and Approved Parts.

**For further information, please contact your Citroën Retailer.**

### Citroën Motor Insurance

Citroën Insurance has been designed specifically for our vehicles. You don’t just get repairs you get Citroën expertise, service, quality and parts. You see, where other insurers see a vehicle, we see a Citroën.

**So, when the time comes to renew your insurance cover, call Citroën Insurance on 0370 024 2725.** (Lines open 8am-8pm weekdays, 9am-5pm Saturdays)

**Alternatively, visit [www.citroen.co.uk](http://www.citroen.co.uk) for more information or to apply online.**

Or [click here](#) to contact Citroën directly. Alternatively, for further information, please contact your Citroën Retailer.

### Citroën Connected Services

Vehicles equipped with the Citroën Connect box have an embedded SIM card.

This means that as well as safety features, Citroën drivers can subscribe to a range of connected services:

- Real Time Traffic and Speedcam alerts: with live data to enhance the Citroën Connect Nav system
- Remote access to lock or unlock the vehicle’s doors from a smartphone
- E-remote Control: remote management of electric vehicle charging and temperature
- And much more!

Service availability depends on the hardware fitted on each vehicle. For more information [click here](#).
